WHO / INVITE TEXT

- Coach Stone through bot setup and deploy
- Invite: "Stone — do the homework. If it's not done, I'm canceling."
- Invite: be by laptop; focus; end state — "team working for you"
- Homework Doc: Doc link
- Doc **inaccessible** via Drive MCP at prep (personal + 360) — status of answers unknown

SNAPSHOT · OPEN LOOPS

- Verify homework live / on phone before ordering coffee — cancel if blank
- No Slack hits for Stone/Quigley homework after Sep 10
- Back-to-back: Kyle Meet ends 10:30 — drive to Sanford; buffer tight

Do not invent Stone life-pie / bot roster

TALKING POINTS · ASKS

- Open Doc together — if empty, cancel per own rule
- If done: coach setup + deploy bots to match answers
- Keep laptop-focused; avoid scope creep

> **Win:** Homework gate enforced; if proceed, Stone's bots live and asking what they can do next.
